I met Howard Batie in person a couple weeks ago and spent over ten hours with him (during two days) doing a Michael Newton style Life Between Life regression. During my visit, I also learned about Howard's amazing Spiritual Journeys work ... pioneering beyond what Michael Newton accomplished. In his freshly published 'Spiritual Journeys' book, you will read actual hypnosis session transcripts where Howard guides some of his own clients to make direct contact with nonphysical beings, including the client's Higher Self (soul) and Spirit Guide. Howard masterfully interviews these Spirit Beings and acquires amazing information about how souls are born (created) and even what the soul was feeling and sensing BEFORE it was individuated from The Source into a separate light-energy being ... a 'baby' soul.

Howard also acquires amazing information about why Earth was created and how our planet is unique in the Universe and why we attract so much attention from the Cosmos. You will truly MISS OUT on an amazing array of leading edge information about what Earth is all about if you don't read 'Spiritual Journeys'. I have already gifted friends and family with copies. I can't recommend 'Spiritual Journeys' enough.

My gut feel about Howard is that he is an honest, decent, humble man who has creatively developed a method to empower his students and clients with skills to eventually be able to make contact with their Higher Self and Spirit Guide without needing a hypnotherapist. If you are a hypnotherapist yourself, Howard Batie and his pioneering work may be the most important discovery of your career.
